## The Markets

### New York Stock Exchange

New York, Nov. 29.—Canada's seizure of home grown grain strength in various specialties and more favorable railway statements were factors in today's uncertain market.

**Closes:**  
American Sugar Refining, 117½.  
Anaconda Copper, 88½.  
Atchison, 107.  
Chino Copper, 154.

U. S. Steel pfd., 115½.

### London Stock Market

London, Nov. 29.—American rail road shares were featureless and unchanged on the stock exchange today.

### Chicago Board of Trade

Chicago, Nov. 29.—Canadian com-modities of millions of bushels of wheat brought an excited rush of buying here today and caused a decided upturn in prices. The market, however, as a whole did not prove as wild as many traders had expected. Notwithstanding that the Canadian seizures of wheat were generally accepted as emphasizing European need for wheat, the bulls here were strained by fears expressed that no increase of export demand from the United States would follow, opening prices of wheat here, which ranged from 3½ to 4½ cents higher, with December at \$1.65½; Jan. and May at \$1.67½; June, \$1.68½.

The close was firm at 2½ to 2½ @ 3½ cent advance, with December at \$1.67½ and May at \$1.68½.

Corn was bullishly affected by the advance in wheat. The gains, however, were only temporary. After opening a shade off to 2½ cent up, the market rose to more than a cent above Saturday's finish but gradually receded.

The close was firm at net gains of 1 to 1½ cent.

Oats developed firmness with corn and wheat.

Grain strength and a rise in the hog market carried provisions upward.

**AUSTRIANS USE DUMMY MACHINE GUNS TO RATTLE THE ENEMY**

Petrograd, Nov. 29.—Dummy machine guns which make noise like the real thing and thereby scare off the attacking enemy, are reported to be one of the latest innovations tried by the Austrians on the southern front.

It is a well known fact that infantry, once loaded on a charge upon trenches defended with rapid fire guns, are apt to waver instinctively from points where the Maxim seems to be threatening. However dense the roar of heavy artillery during attacks, the short sharp barking of these little guns is still distinctly audible. In order to increase the psychological effect of machine gun fire, the Austrians three times hit upon the plan of mounting in their trenches, alternately with real Maxims, a large proportion of dummies. These produce a little identical in sound with that of the real gun and are operated by rapidly turning a handle.

## JACK JOHNSON NOW A RECRUITING AGENT

**Big Ex-champion Blocks Traffic in Glasgow Streets in Elquent Appeals to Englishmen to Fight.**

(Associated Press Correspondence.) Glasgow, Nov. 29.—Four thousand people blocked the traffic in Queen street for a half hour today while Jack Johnson made a recruiting speech. He drove his big motor car to the Royal Exchange, removed his big white hat, showed his plentiful display of gold teeth, told how he had given two of his own motor cars to the government and urged every strong man to enlist. He was introduced by Corporal Baker of the Scottish Rifles, clad in khaki, and the result of his speech was nine recruits.

British actors are frequently making recruiting speeches from the base of the Nelson column in Trafalgar square, London, but an American prize fighter securing nine recruits for Kitchener's army in a Glasgow open-air meeting is a novelty, not altogether destroyed in interest by the fact that Johnson is appearing in a local music hall this week in "review." Incidentally, his wife is planned as "America's most beautiful and versatile artist, the originator of America's greatest craze, the oyster dance."

### FEVERISH ACTIVITY IN SHIPBUILDING IN JAPAN

(Associated Press Correspondence.) Kobe, Japan, Nov. 29.—No soldier who enters Kobe by sea can fail to observe the great activity in shipbuilding at this port. The most heavily capitalized shipyard in Japan is located here, and all its docks are filled with work. Three large ships and many smaller ones are in course of construction. Electrical steel rivets keep up a constant din which can be heard far out at sea.

In June there were forty-four ships aggregating 188,000 tons in the hands of Japanese builders and the tonnage has increased considerably since that time, although the exact figures are not available. All Japanese ship yards have orders which will keep them at high pressure for over a year. The scarcity of cargo space which the entire world is feeling has thrown much business into the Japanese shipyards.

The ship yard at Keihin is reported to have nearly 100,000 tons of steel ships in course of construction. It is estimated that there is a tonnage of 75,000 in course of construction here in Kobe and small yards in various ports probably have a tonnage of 25,000 under way.

Prices for ships have risen among rates. Freight is congested at practically every important port in the Far East. In giving orders, the shipping concerns inquire about the speed with which a commission can be executed rather than the charges. It is rumored that eight of racing orders is now being sold and bought at a high premium by those interested in shipbuilding transactions.

### STANDARD OIL HEAD DIES AT SUMMER HOME

(By Evening Herald Leased Wire)

New York, Nov. 29.—William E. Demus, second vice president of the Standard Oil company of New York and identified with Standard oil for thirty-three years, died suddenly today in his summer home near Port Jervis. He contracted pneumonia while duck shooting last Friday but his condition had not been thought serious.

Standard Oil's great foreign trade is attributed largely to the work of Mr. Demus, who spent much time in Asiatic and European countries developing it.

Sweden Creates New Bureau.

Stockholm, Nov. 29.—The Swedish government has decided to establish a central bureau to deal with all matters affecting Swedish exports and imports, including the transit trade across Sweden to Russia. The bureau will have far-reaching powers and will be managed by men of wide commercial experience. One department will deal exclusively with British trade, another with trade with Germany, and another with trade between Sweden and the United States.

### TAKE 'CASCARETS' IF HEADACHY, BILIOUS AND CONSTIPATED

Best for liver and bowels, bad breath, bad colds, sour stomach.

Get a 10-cent box.

Sick headache, biliousness, coated tongue, head and nose clogged up with a cold—always take this to torpid liver, diastatic, regenerating food to the bowels, sour, gassy stomach.

Poisonous matter clogged in the intestines instead of being cast out of the system is reabsorbed into the blood. When this poison reaches the delicate brain tissue it causes congestion and that dull, throbbing, aching headache.

Cascarets immediately cleanse the stomach, remove the sour undigested food and fecal gases, take the excess bile from the liver and carry out all the constipated waste matter and poisons in the bowels.

A Cascaret tonight will surely straighten you out by morning. They work while you sleep—a 10-cent box from your druggist means your head clear, stomach sweet and your liver and bowels regular for months.

### KAISER VISITS HIS ALLY, FRANZ-JOSEPH, AT ANCIENT CASTLE

(By Evening Herald Leased Wire)

Berlin, Nov. 29 (via wireless).—Emperor William arrived in Vienna today and paid a personal visit to the Austro-Hungarian emperor, Emperor Francis Joseph, at Schönbrunn castle.

The German emperor was received at the railroad station, says the overseas news agency, by Archduke Charles Francis, the heir to the throne, and Archduke Franz Salvator and Archduke Charles Stephen. The news agency adds:

"This was in 1899 and the government sought to show by its actions that thereafter the Hohenzollerns was used as a 'sham' for transactions which it did not care to undertake itself."

The meeting between the emperors, who had not seen each other since the outbreak of the war, took place in Schönbrunn castle and was a most cordial one. The monarchs could hardly master their emotions."
